

SF Pro Text Sans Serif / Body 16pt, Right Aligned

I can hear the sound of a heartbeat before it goes out... Won't ever leave my memory of bloodshed all around. And I can see a tear on my father's face before it falls out. Oh, my enemy, how could I have ever let you down? Oh... When all these trees saw us grow... Cut our teeth and make our bones right here. We'd play with shields made of stone. Share our dreams and sit our thrones. Be still, 'cause I see smoke up ahead and I got steel in my hands. We will return like warriors, I swear, we'll find glory up ahead...

Sistemas Font BT Display / Title 76pt, Center Aligned

These fonts have great chemistry. New York Extra Large keeps the entire document classy while maintaining legibility and complementing the title font. SF Pro Text is very down-to-earth and recognizable, perfect for a subtitle. And Sistemas Font BT felt like a mixture of both Serif and Sans Sarif, so it had to be the title. I hope you like it!

New York Extra Large Serif / Subtitle 16pt, Left Aligned

Tell me: Where is my home? I don't recognize the faces anymore, no...

Where is my friend? The one I've known since I was only just a kid...

I think it's time to say goodbye...

Goodbye, goodbye... Goodbye, goodbye, woah... I think it's time to say goodbye... Goodbye, goodbye... Goodbye, goodbye... woah...

I think it's time to say goodbye...

Goodbye, goodbye... Goodbye, goodbye, woah... I think it's time to say goodbye... Goodbye, goodbye...

Goodbye, goodbye... woah...
